Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. Claims 1, 8, 13, 20, and 28 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The Examiner understands that the originals contain print data.

Accordingly, it is unclear to the Examiner how the read originals could be arranged at "positions of the print data" as in claims 1, 8, 13, 20, and 28. The specification discloses an "input means for inputting information for designating and arranging an image original read by the scanner device in a predetermined position of the print data" yet it is unclear how the "arranging" is carried out.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1, 8, 13, 20, and 28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the print data" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 8 recites the limitation " the print data " in line 7. There is insufficient antecedent basis for this limitation in the claim.

Claim 13 recites the limitation "the print data" in lines 25-25. There is insufficient antecedent basis for this limitation in the claim.

Claim 20 recites the limitation " the print data " in lines 7-8. There is insufficient antecedent basis for this limitation in the claim.

Claim 28 recites the limitation "said information processing apparatus" in lines 3-4, line 10, and line 14. There is insufficient antecedent basis for this limitation in the claim.

1. Claims 2-7, 9-12, 14-19, and 21-27 are rejected as being dependent on a rejected base claim.
